## Topic 0 Class Introduction

資料結構與程式設計
Data Structure and Programming

09/12/2018

#### **Class Information**

- ◆ Class Website
  - https://ceiba.ntu.edu.tw/1071\_DSnP
- ♦ Discussion board
  - ◆ FB → NTU DSnP
  - Please go to FB/NTU\_DSnP to apply, and make sure we can identify your displayed name as this board is open only to registered students.
  - In case you don't get admitted in a few days, please go to <a href="https://goo.gl/Ua8k82">https://goo.gl/Ua8k82</a> to leave your name
- ◆ My office:
  - EE building II 444
  - (FB/Line/Skype/WeChat ID) ric2k1
  - (e-mail) cyhuang@ntu.edu.tw
  - Office hour: stop by or by PM/e-mail appointr
- ◆ Class TA(s)
  - FB 陳家暄
  - Others TBD

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **Class Information**

- Required textbook: none
- Suggested reading
  - Class slides and source codes
    - Download from the Ceiba website
  - Any of your Data Structure and C++ programming textbooks
- ◆ Highly recommended (DO THEM ASAP)
  - Review C++
  - Get access to and be familiar with Linux-compatible working environment

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

3

#### **Grading (May subject to change)**

◆ Homework 70%

◆ Final project 30%

♦ Bonus TBD

The final grades are subject to linear adjustment. Instructor will determine the average and standard deviation

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 選課方式

- ◆本課程為二類加選(不開放初選),想要領加簽單者 ,請至 https://goo.gl/D8yrDG sign up,並且在 9pm,09/18 (二)前完成作業一上傳,批改通過之 後,我們會將授權號碼用 e-mail 寄給你
  - 不用滿分, 但也不能零分
- ◆ 請詳閱作業說明
  - 作業說明-- 很 長 --是本課程的特色, 請提早習慣
- ◆ 請注意作業相關規定
  - 沒有按照規定命名檔案以及上傳者, 會被扣分
- ◆ 我們有強大的抓抄襲程式,會在「事後檢查」是否 有抄襲的現象,請勿以身試法,會有嚴重的後果。

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

-

#### Overview of this course

Part 1: Introduction

Part 2: Polishing Your Programming Skills

Part 3: Data Structure Revisited

Part 4: Putting What You Learn Together

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### (Last Year) 106-1 Class Schedule

109/14 Intro, C++ Review (Basic)
109/21 C++ Review (Basic) HW2 out HW1 due
109/28 C++ Review(More on func, vars, classes)
10/05 C++ Review(overloading, polymorphism) HW3 out HW2 due
10/12 C++ Review(overloading, polymorphism)
10/19 Memory Mgr & Exception Handling HW4 out HW3 due
10/26 Complexity, List & Array
11/04 Tree (Part I) HW5 out HW4 due
11/09 C++ Review- More on IO Streams

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

\_

#### (Last Year) 106-1 Class Schedule

(	, , , , , , , , , , , , , , , , , , , ,		
11/16	Graph and Circuit	HW6 out	HW5 due
11/23	Special Topic: Lex and Yacc		
11/30	Linux Prog, Heap/Set/Map		
12/07	Cache and Hash	HW7 out	HW6 due
12/14	Final Project Discussion	Proj. out	
12/21	Final Project Discussion		HW7 due
12/28	Tree (Part II)		
01/06	Special Topic: C++11		
01/13	Final exam week		
01/20	Final project week		Proj. due

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

В

#### What would be different this year?

- ◆ Kind of 翻轉ing
  - 寫程式, or in general 學習 CS 相關知識, 很多觀念其實有些抽象, 所以光用聽的, 很容易忘記/沒感覺, 一定要配合實際動手做、體驗、觀察, 才能深刻體悟, 內化成自己的實力。
  - ●每堂課最後,都會出幾個小練習當作下一堂課的教材,請大家回家配合下一堂課的投影片自行練習。
  - 有練習, 下次上課有體悟。沒練習, 下次上課趕進度。
- ◆ 練習要不要交?算不算分數?
  - 我們還是會開 Ceiba 讓大家繳交,但不會算分也不會批改。
  - 但它可以在期末作為「bargaining power」,也就是說如果你的分數不小心差 0.5 分而掉了一個等地,你可以用它來證明你的認真程度,可以當作唯一期末要分的理由。

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

9

#### 107-1 Class Schedule

09/12 Intro, C++ Review (Basic) 09/19 C++ Review (Basic) HW2 out HW1 due 09/26 C++ Review(More on func, vars, classes) 10/03 C++ Review(overloading, polymorphism) HW3 out HW2 due 國慶日放假 10/10 10/17 C++ Review(overloading, polymorphism) HW4 out HW3 due 10/24 Memory Mgr & Exception Handling Complexity, List & Array 10/31 HW5 out HW4 due 11/07 Tree (Part I)

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 107-1 Class Schedule

11/14 C++ Review - More on IO Streams HW6 out HW5 due 11/21 Graph and Circuit 11/28 Special Topic: Lex and Yacc 12/05 Linux Prog, Heap/Set/Map HW7 out HW6 due 12/12 Cache and Hash Proj. out Final Project Discussion 12/19 HW7 due 12/26 **Final Project Discussion** 01/02 Tree (Part II) Final exam week 01/09 01/16 Final project week Proj. due

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

11

#### Other administrative information

- ◆ For 旁聽生
  - 原則上不限旁聽,但如果教室過於擁擠,請旁聽生將 座位優先讓給修課的同學,至隔壁博理 112 看轉播, 謝謝合作!
  - For 台大學生,請寄給我你的中文姓名、系級、學號
  - For 非台大學生,請寄給我你的中文姓名、校名系級 or 職位,e-mail address
    - 寄到 <u>cyhuang@ntu.edu.tw</u>, 我再幫你加為 Ceiba 的旁聽 生。
  - 旁聽生沒有 Ceiba 作業區功能。想要拿到課前練習或者是作業,請自行想辦法,不要來找我或是助教。

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### What HW#1 tells you...

- ◆ C++ 很煩!! 為什麼不直接學簡單又漂亮的 Python, 或者是很潮的 JavaScript 呢?
  - ●身為工程學系的學生,我們除了要能夠很快的把事情做好之外,還要有把東西 optimize 10X以上的能力
  - ●不過現實是,看看你們 HW#1 的 code, 可以 想像如果讓它再長大十倍、百倍、千倍... 會 變成什麼樣子嗎?

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

13

#### 關於【資料結構與程式設計】,這門課想要 傳遞的觀念是...

- ◆ 語言的嚴謹性與設計的美感
  - 電腦語言 vs. 人類語言
- ◆ 程式的架構需要設計
  - 你寫的程式除了要讓電腦看得懂之外,讓人類 (尤其是自己)看得懂更是重要
- ◆ 資料結構的重要性
  - ■試想你有一堆等待被運算或是分析的資料,如何確定某筆資料存在?如何確認所有資料被運算過一次?如何有效率的增加或是刪除資料?
- ◆ 資料 vs. 物件, 結構 vs. 類別
  - ●希望大家可以將「資料結構」與「程式設計」融 會貫通

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 這門課的目標是:

除了對於資料結構能有 正確的觀念之外,

起碼要有自行 handle 1000 行程式碼的信心!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

15

#### 寫 1000 行程式, 很難嗎?

- ◆ 當然,要看是寫什麼
- ◆ 如果是有功能性,可以解決一些問題的程式 , 1000 行的程式的確已經有相當的複雜度 重點是 --- structured design and thinking!
- ◆ 人腦的思考複雜度有一定的限制, 如果有超過一定數量的元素要一起考量, 就會無法掌握
- ◆ 但階層式的、歸納式、模組化的思考, 有助於化繁為簡,讓程式在可以 handle 的 範圍內被最佳化

Data Structure and Programming

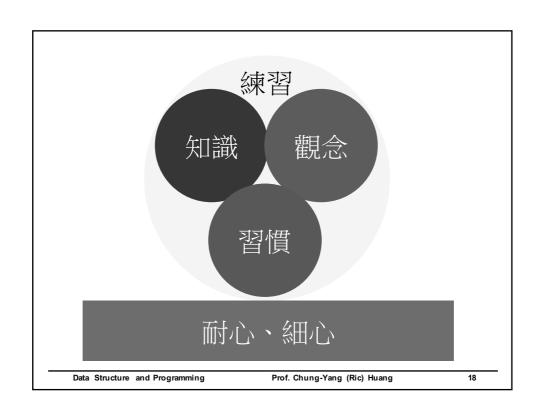

Prof. Chung-Yang (Ric) Huang

#### 寫 1000 行程式, 很難嗎?

- ◆ 10+ 行的程式
  - → 課本的作業,練習語法, no brainer
- ◆ 100+ 行的程式 → 熟悉語法之後,並持著一股浩然正氣的意念 用力寫下去,大家都做得到
- ◆ 1000+ 行的程式
   → 如果有能力將 100+ 行的程式模組化,那
   1000+ 行的程式要 handle 的只是最上層的 control flow,何難之有?
- ◆ 10000+ 行的程式 → s/1000/10000, s/10000/100000, repeat this!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Overview of this course

Part 1: Introduction

Part 2: Polishing Your Programming Skills

Part 3: Data Structure Revisited

Part 4: Putting What You Learn Together

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

19

#### -- Note --

# Lecture notes and homework assignments are subject to change!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

### 1. C++ Review - The Basic (Variables, Classes, IO Streams)

- ◆ Part I: Understanding "Variables"
  - What is a variable?
  - The concept of "memory"
  - Object, pointer, reference
- ◆ Part II: Understanding "Classes"
  - What is a "class"?
  - Constructor, destructor
  - new, new [], delete, delete []
  - A\*, A\*\*, A\*\*\*....
  - Access privilege: private/protected/public
  - Friend

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

21

### 1. C++ Review - The Basic (Variables, Classes, IO Streams)

- ◆ Part III: Understanding "I/O Streams"
  - C++ standard I/O
    - Introduction
    - Class hierarchy and included files
    - Class data members and member functions
  - File I/O
  - I/O manipulators

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Homework #2

- ◆ Target due: Week #4 (Tuesday, 10/01)
  - A command line reader
  - Thorough understanding of "pointers"
  - Basic program design
  - Ref code: 840/950 lines C++ (last year's)
    - Ref src / Ref prog.
  - New feature(s) may be added...

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

23

### 2. C++ Review - More on Functions, Variables, Classes

- ◆ Part I: Understanding "Functions"
  - Global vs. member functions
  - Function signature, prototype, definition
  - Function parameters, arguments
- Part II: More on "Variables"
  - "const" keyword
  - Array vs. pointers
  - Pointer arithmetic
  - Memory sizes of variables
  - Return value of a function
  - Compilation issues
  - Compiler preprocessors

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

### 2. C++ Review - More on Functions, Variables, Classes

- ◆ Part III: More on "Classes"
  - Class, struct, union, enum
  - Bit-slicing
  - Class wrapper
  - "static" keyword

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

25

### 3. C++ Review – Overloading and Polymorphism

- Class inheritance
  - Access privilege: private/protected/public
  - Virtual function and polymorphism
  - Abstract class and pure virtual function
  - Data encapsulation
  - Multiple inheritance
- ◆ Function overloading
- Operator overloading
- Class template class
- ◆ Template function
- ◆ Functional object

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Homework #3

- ◆ Target due: Week #6 (Saturday, 10/19)
  - Complete command interface and a simple database system
  - Learn how to read a formal spec
    - Homework description file: 19 pages
  - Learn how to write a structured code
  - Ref code: 2215(2541)/2959 lines C++
    - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

27

### 4. Memory Management and Exception Handling

- Memory related problems
  - Illegal memory address access
  - Memory leaks
  - Fragmentation
  - Performance issues
- Memory management
  - Basic concept
  - Categorization
  - How to implement
  - Basic concepts of data structure
- Exception Handling
  - Try, throw, and catch
  - Interrupt handling

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Homework #4

- ◆ Target due: Week #8 (Sunday, 11/03)
  - Memory management
  - Computer architecture concept
  - Pointers (again), basic data structure
  - Ref code: 1478(2869)/3038 lines C++
    - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

29

#### 5. Computational Complexity

- Review of complexity analysis
- ♦ Why should I care?
- What's the most frequently encountered problem?
- ♦ What's your best bet?

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 6. Dynamic Array vs. Linked List

- ◆ Abstract data types
- ◆ Linear data types
- ◆ Static vs. dynamic array
- ◆ Why dynamic array? Why not linked list?
- ◆ How to evaluate their performance?
  - Runtime vs. memory usage

Data Structure and Programming

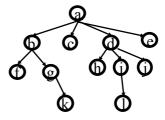

Prof. Chung-Yang (Ric) Huang

31

#### 7. Tree (Part I)

- ◆ Non-linear data types
- ◆ Decision trees
- ◆ Tree traversal
- ◆ Balanced trees
- ◆ Implementation issues

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### Homework #5

- ◆ Target due: Week #11 (Monday, 11/18)
- Implementation and comparison of various data structures
  - Linked list
  - Dynamic array
  - Binary search tree
- ◆ Ref code: 1520(2902)/3327 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

33

#### 8. C++ Review - More on IO Streams

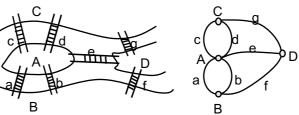

- ◆ More on I/O manipulator
- ◆ Formatted and unformatted I/O
- ◆ States and flags in I/O streams
- ◆ Tying I/O streams
- ◆ File pointers
- ◆ Random access files
- ◆ Stringstream and streambuf

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 9. Graph and Circuit

- ◆ Tree vs. graph
- ◆ Basic graph theories
- ◆ Graph traversal problems
- Loop handling
- How to design data structure for a circuit netlist?

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

35

#### Homework #6

- ◆ Target due: Week #13 (Tuesday, 12/03)
- ◆ A circuit parser
  - I/O and file streams
  - Graph/Circuit data structure
  - Hash/Map usage
  - Boolean logic
- ◆ Ref code: 1535(2917)/4189 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

### 10. Special Topic: Lex and Yacc yet another compiler's compiler;

- ◆ What is a (programming) language?
- ◆ Lexical analysis Lex
- ◆ Syntactical analysis Yacc
- ◆ Language parser
- ◆ Tutorial: an command-line calculator

using lex and yacc, we could auto-generate c++/c source code to parse some format, like .json files.

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 11. Programming on Linux Workstations

- Why Linux? Why not MS Windows?
- History of Linux OS
- Basic survival guide on Linux
- Writing programs on Linux
  - Shell commands
  - Compiler
  - Makefile
  - Debugger

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 12. Heap, Set and Map

- Review of sorting algorithms
- ◆ Review of binary (balanced) trees
- Complexity analysis
- ◆ Alternative ways of implementation
- ◆ Standard Template Library (STL) revisit

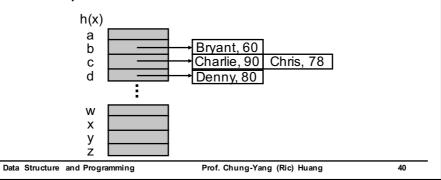

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

39

#### 13. Cache vs. hash

- Review on hash
- Alternative to hash
- ♦ What's the difference?
- Computational cache/hash

#### Homework #7

- ◆ Target due: Week #15 (Wednesday, 12/19)
- ◆ Implementation and practical applications of various data structures
  - Heap
  - Hash
  - Cache
- ◆ Ref code: 1544(2926)/3114 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.

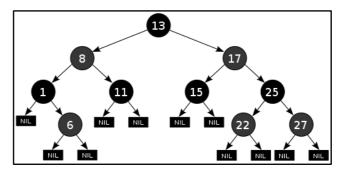

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

41

#### 14. Tree (Part II)

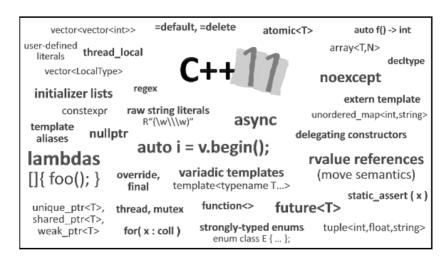

- ◆ Red-Black Tree
- ♦ 2-3-4 Tree
- ◆ Splay Tree
- ◆ B-Tree

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 15. Special Topic: C++11 (TBD)

img src: https://christophep.files.wordpress.com/2011/11/c-11.png

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

43

#### **Final Project**

- Functionally Reduced And-Inverter Graph (FRAIG)
  - Read in a circuit netlist (HW6)
  - Perform circuit optimization (graph operations)
  - Simulate the circuit (graph traversal, Boolean operations)
  - Collect functionally equivalent candidate pairs (efficient hash implementation)
  - Define the "magic number" to control the program flow (engineering sense)
- ◆ Ref code: 4822(6204)/8255 lines in C++
  - Ref src (Ref src + hidden files)/ Ref prog.
- ◆ 30% of the final grade!! Please start earlier!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 益華電腦贊助 NTU DSnP 期末專題

#### **Homework Assignments and Final Project**

- Once again, get yourself familiar with the C++ programming on Linux ASAP!!
  - You MUST compile your code on Linux or OS X environment.
  - g++ compiler is a MUST
- ◆ Homework turn-in
  - Through NTU Ceiba class website
  - Please pay attention to the rules on the class website
  - Filenames, compression rules, etc.
- ♦ No copying/pirating
  - If happens, -20 for your term grade!!
- ◆ Don't miss any homework!!
  - ~10% of your term grade...
- ◆ Do not delay
  - 1 day  $\rightarrow$  1/3
  - 2 days → 2/3
  - 3 days and up  $\rightarrow$  0

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 聽說這門課很操,是真的嗎?

◆ 不要懷疑, 根據多次的問卷統計, 同學們覺得這 門課的 loading 大約 >= 9 學分, 每兩個星期要 花 20 ~ 30 hours (以上) 在作業上。

#### 因為我覺得台大的學生根本修太多主科了!!

你可以去修很多其他領域的課, 跨領域學習, 增廣見聞;

但你如果想要把一些專業科目學好,我覺得一學期應該修兩三門就好,然後每門課九學分(誤)!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 雖然這門課很操...

- ◆ 但好處是沒有期中 & 期末考, 不用去 K 教科 書或是消習題。
  - ●不過有期末 project
  - ●而且要學會自己找參考資料
- ◆ 所以如果你還要忙社團或是要參加什麼隊的 ,或是其他的課很重,請搞清楚你的 availability,切莫**始亂終棄!!**
- ◆ 我的目標是:同學們在修了這門課之後除了 對於資料結構能有正確的觀念之外,起碼要 有自行 handle 1000 行程式碼的信心!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

49

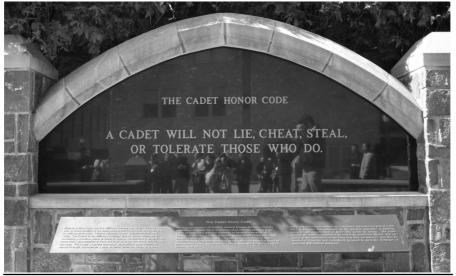

#### 我是個寫程式的小嫩咖, 我有辦法修這門課嗎?

- ◆ 原則上絕大部分的人在你們這個年紀都是寫程式 的小嫩咖, 所以我想沒有問題。
- ◆ 重點還是要能有每兩個星期交一個作業,連續14 周,然後再加上一個期末專題的"commitment"
  - 再強調一次,要考量現實,不要輕易相信自己的 意志力可以戰勝一切!
- ◆ Commitment 從何而來?
  - 首先,請確定"把程式學好"對你的重要性
  - 再來,請確定自己可以接受"學習比成績重要"
  - 還有,請發誓自己"寧願被當,也不會抄襲"

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **DSnP Honor Code**

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

E4

#### **DSnP Honor Code**

- ◆上課要專心, 寧願翹課也不要來課堂做別的事
- ◆作業不抄襲, 寧願被當也要從頭到尾自己寫

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### **DSnP Honor Code**

- ◆ 上課要專心,座位有限,寧願翹課也不要來課堂 做別的事,佔用學習資源
  - ●不點名,學生有自行決定如何學習的自由
  - 但是如果你是來教室上臉書、打電動、睡覺補眠 ,那對我是種不尊重,對同學也有不好的影響。
  - 如果你覺得上課的內容你都已經會了,就請不要 貪圖這個學分,把座位讓給別人,或者,你也可 以不用來上課。
  - ●不過,上課用電腦寫寫小程式,驗證上課所學, 或者是上網查詢相關資料,是被鼓勵的

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

53

#### DSnP Honor Code --- 關於抄襲

- ◆ Definition: 所謂「抄襲」,就是將別人部分或是所有的 code,用 copy/paste,或是看著 code 跟著打的方式,變成自己的作業的一部份
  - 歡迎互相討論,甚至拿別人的 code 來 study 也不會/無法禁止( 雖然這樣並不好),但最後一定要自己獨立的寫。
- ◆ 我們有強大的抓抄襲的程式,會對所有的作業以及之前學長姊的作業去做比對,如果沒有抄襲,相似度都會很低,但如果有抄襲,不管你是改變數名稱,還是換 statements 順序... 等等,我們都可以很容易抓出來,所以請勿抱著苟且的想法。
  - 以我們的作業複雜度而言,只要是自己寫的,一定一眼就可以看 出跟抄襲的不同。
- ◆ 凡抄襲者不論多寡、理由,除該次作業 0 分之外,學期成績一律 再扣 20 分 (調分後)

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 一些前車之鑑...

老師您好:

對不起老師...我對之前的作業有些抄襲or參考的疑慮,睡覺都睡不好,

所以還是先寄信詢問(自首)了...雖然我自認程度很輕微拉(爬過ptt對於抄襲的定義, 覺得還好??)

自從在寫HW4快到尾聲時在網路上搜到疑似老師2012年DSnP的解答...相信老師都知道,因為實在太好搜了== 之後我作業不懂的就會去看老師的code...

. . .

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

55

#### 一些前車之鑑...

我覺得網路上那2012版的解答,雖然部分不夠完美(EX:HW6 gate定義覺得可以再刪減),

但他對於我就像潘朵拉盒子,一載下來看,就是罪惡...可是當作業不懂時,他卻是最好的來源。

. . . . . .

如果真的被處罰也很甘願, 因為是我自己程式能力不足。

儘管如此...還是拜託老師開恩...即使有2012年的code, 我每次作業也是會花20小時up, 覺得努力沒有比別人少... 也常常跟同學討論code, 當然都是based on對老師code的理解, 再加上自己的詮釋。

最後,謝謝老師看完我很長的解釋文...感謝老師開DSnP, 我學到的真的很多!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

#### 一些前車之鑑...

#### (From Ric)

很遺憾的,你沒有在學期中我一再強調抄襲的定義的時候就主動承 認,而前幾天問你的時候你也還是無法就直接承認你就是有抄襲。

因此,我只好按照學期初所說的規定,將你該次的作業算成零分,然後學期成績在調分後再扣 20 分,因此,你的成績將會變成 52分 (F). 希望你可以接受這樣的處置。

-------

#### (Reply)

這次的經驗已經讓我飽嚐煎熬與苦頭 以後不只不敢再犯大概還會便成陰影警惕很久 這幾天也想了很多,那些文過飾非的話大概不只是想要粉飾太平, 一部分也是因為內心本來就有所愧疚想要說服自己吧

正如教授所說:不只沒有遵守規定,我還欠缺更多勇於認錯承擔的態度

謝謝教授, 還願意耗費時間跟我說這麼多。

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

57

### A short version of "Computer Programming" class?

- **♦** NO!!
- ◆ If you don't have any background in C++ (or C)

. . .

- You probably have chosen the wrong class.
- ◆ If you are poor in C++ programming...
  - Well, you are definitely NOT the only one, so you are very welcome!!
  - Please pay attention to the lectures in this topic, and make sure you can commit enough time on homework

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

### You may think I cover way too many details in C++... (Why bother to understand them?)

- ◆ Remember:
  - Programming is a computer science.
  - There is NO random bug!!
     Everything happens for a reason.
  - You need to be rationale, and be "precise on the details".
  - → Capability to handle the complexity!!
- ◆ But...
  - Programming is also an art.
  - A good program looks beautiful!!
  - A beautiful program is beautiful for a reason.
  - A good design is a MUST, and easy to maintain to make the program live long!
  - → Sense to manage the complexity!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

59

#### "Should I stay or should I go?"

- ◆ Please check on your own:
- 1. Do I have the eager to improve my programming skill?
  - 光有 "希望" 是不夠的, 要有"渴望" 才行。
- 2. Am I willing to spend more than 10 hours per week on the homework?
  - ●獨力完成,不抄襲,也不要當寄生蟲。
- 3. Do I agree that "learning" is the most important thing in class?
  - 心態上要能接受"學習"比"分數"重要。

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

### 千萬不要認為 CS 很熱門就 跑過來修 DSnP...

除非你想下猛藥來確認自己適不適合 當軟體工程師...

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang

61

#### 歡喜修課, 甘願承受

- ◆ 說實在的, DSnP 是 NTU(EE) 的奇蹟!
  - ●需要大家共同的珍惜
- ◆非誠勿試,please!!

Data Structure and Programming

Prof. Chung-Yang (Ric) Huang
